Wife of Officer of the Day,
Now in Louisville, Ky.,
Tells of Hearing Shouts
of "Vive Villa; Death to
Americans," Soon After
Which Mexican Trumpets
Sounded Retreat.

(ASSOCIATED PRESS TELEGRAM)
Louisville, Ky., March 14.—Francisco Villa's bandits knifed every sentry and thus effected undetected entry into Columbus, N. M., according to Mrs. James P. Castleman, wife of Lieutenant Castleman, officer of the day during last week's raid of Mexicans on Columbus. Mrs. Castleman was in Columbus during the battle and now is at the home of her parents in Louisville.
"At 4:30 o'clock I heard a shot," said Mrs. Castleman, "and I dressed myself and children. Then bullets rained on the house. I put the children under the bed and got my pistol, for I said they would not take me alive and I would certainly get some of them if they came in."
"An awful half hour followed, in which I heard nothing but shots and shouts of 'Vive Villa; death to Americans.' Then I heard the Mexican trumpets sound the retreat. Why they didn't get into our house I don't know."
"Villa did not come by either the international gate or the water hole at Boca Grande. He cut the fence and came in between Gibson's ranch and the gate. He killed all the sentries with knives noiselessly. His men were in the city before anybody knew it. Some of the soldiers were killed before they got their guns."
"Lieut. J. P. Lucas was in command of the machine-guns and fought all through the battle barefooted. Why the machine-guns failed to work is a question many have asked. The battle was in the dark, only two men could get to Lieut. Lucas; one of these, a sergeant, was killed, and he had only himself and another man, and there in the dark he must have put the charge in wrong, for the gun jammed. The second machine-gun worked."
"The battle lasted till 7:30 o'clock. The Mexicans outnumbered us six to one. I do not see how we won unless it was because the Mexicans all shoot high. All the marks on my house—and it is full of bullet holes and bullet holes—are high. Our men all hit below the belt, as we could see from the dead Mexicans in the street."

GERMANS AGAIN SHIFT
THE EFFORT

From West to East Bank of
Meuse

NO NEW INFANTRY MOVE

Teuton Reconnaissance In
Force Has Taken Place
West of Douaumont
Which According to Re-
ports From Paris, Has
Been Repulsed By French
Curtain of Fire.

Activities on the Verdun front continue to be chiefly those of the artillery arm, which still is being vigorously employed.
No infantry attack by the Germans has developed west of the Meuse where there have been signs that a renewal of the drive was in prospect. The German effort seems to have again shifted in its most intensive form to the other bank of the stream where a reconnaissance in force at Haudremont woods, west of Douaumont, is reported by Paris to have been checked by the French curtain of fire.
Southeast of Douaumont, in the region of Vaux and Damloup, the violent German bombardment continues while further south in the Woivre region, both German and French guns are busy pounding opposing positions.
There is increasing friction between Greece and the Entente Powers, according to advices from German sources. These declare that Premier Skouloudis has notified the entente ambassadors that the Greek government is indisposed to transfer to the Entente the administration of railroads in northern Greece and Macedonia, to withdraw troops from the Macedonian region and to meet other requests by the entente. Greek and French soldiers are reported to have clashed on the island of Mitylene.
Inquiries have been made of Germany in Norway as to whether it was a German submarine that torpedoed the Norwegian bark Silus, which with seven Americans on board was sunk last week off the French coast, according to reports from Christiania.

TAFT OPPOSES
BRANDEIS, WITH
OTHER JURISTS

(ASSOCIATED PRESS TELEGRAM)
Washington, March 14.—Former President Taft and six other former presidents of the American Bar Association, today protested to the senate judiciary sub-committee against confirmation of the nomination of Louis D. Brandeis for the supreme court. The others were Simon E. Baldwin, Francis Rawley, Jos. H. Choate, Elhu Root, Morfield Story and Peter W. Meldrim.
The first six sent a letter stating that they felt "under the painful duty to say to you that in their opinion, taking into view the reputation, character and professional career of Mr. Louis D. Brandeis, he is not a fit person to be a member of the supreme court of the United States."

Germany Will Make Amends
If One of Her Submarines
Torpedoed Norwegian Bark

(ASSOCIATED PRESS TELEGRAM)
Washington, March 14.—Unofficial advices received here today indicate that Germany will make complete amends to the United States if it is found that a German submarine torpedoed the Norwegian bark Silus, from which seven Americans were rescued in Havre roads.
The German government is represented here as believing that a torpedo was not responsible for the loss of the bark and that any commander who attacks a neutral ship such as the Silus without warning could be exceeding his instructions.
The sinking of the Silus has been the cause of much concern here because American Consul Osborne at Havre reported that the ship was torpedoed without warning. His report was based on statements of American survivors. Officials are inclined to entertain the possibility that the ship might have been struck by a mine. The case is being investigated further.
Today the department received another report from Consul Osborne which made no mention of the cause of the sinking, merely saying the vessel was unnamed, carried a cargo

Told Passengers.

(ASSOCIATED PRESS TELEGRAM)
Chicago, March 14.—Passengers arriving here on a train that passed through Columbus, N. M., shortly after the Villa raid on that town, told today of the happenings during and immediately after the massacre. O. L. Randolph, Chicago, in speaking of experiences at Columbus, told of a woman brought to the train with wounds through both legs.
"We passed through Columbus Saturday at noon," he said. "A woman was brought on the train with wounds through both legs. She said her name was Mrs. J. J. Moore and that her husband's body was in the baggage car. She asked me if I would look after her as far as El Paso, where she was going and on the way she told her story."
"We had a ranch in Mexico, about six miles from Columbus," she said, "and there my husband became acquainted with Pancho Villa. On the morning of the raid, however, we were living in Columbus, not far from the army camp. We were in bed when Villa himself entered with several of his bandits."
"My husband spoke to Villa, and then, seeing that he was in no mood to talk, tried to resist." Villa promptly shot him four times through the body. As he was writ-

ing on the floor Villa yelled, "Stop your kicking; that's all you ever did anyway." Then he grabbed a rifle from one of his men and plunged the bayonet through my husband's body.
"I bent over my husband's body and pleaded with Villa to kill me, too. A soldier shot me through the legs and as I lay on the floor Villa himself pulled the rings off my hands. Then they went out and left me."

Brigadier General Pershing, Commanding American Expeditionary Force, Said to Be Going to Columbus, N. M., Where 4,000 Troops Are Awaiting Him, to Take Up the Dash After Bandit Leader, as Soon as Orders Are Received

STRICT SECRECY AS TO
ALL TROOP MOVEMENTS

President Wilson Urges That All Preparedness Measures Be Rushed Through Congress, and Rules Committee Will Confer With Speaker Clark, With View to Sidetracking All Other Business, Except Repeal of Free Sugar Clause, in Favor of the Army Bill—All in Readiness for Ohio Troops at Camp Perry, if Mobilization Orders Should Come.

(ASSOCIATED PRESS TELEGRAM)
El Paso, March 14.—Francisco Villa, heading south from Galena, is now encircled by Carranza troops, according to advices from General Louis Gutierrez, commander-in-chief of Chihuahua today. With 15,000 men in Chihuahua and heavy reinforcements on their way he thinks Villa has small chance to escape.

Brigadier General John J. Pershing, commanding the American expeditionary force into Mexico, left here on a westbound train last night, and since his departure, military authorities have refused all information about him.

General Pershing's train was said to be going to Columbus, N. M., where today some 4000 men of the first expeditionary force are in readiness for the dash after Villa.

General Gutierrez arrived in Juarez early in the day and later conferred with General Gavira, the local commandant and Consul Garcia, in El Paso. Afterward General Gutierrez gave out a statement that besides the troops holding points and maintaining patrols, five columns of 1200 men each are closing up on the bandit chief under the respective commands of Gutierrez himself and Generals Luis Herrera, Rafael Maldonado, Benjamin Garza and Jose Cabos.

Villa is now moving south from Galena. General Garza sent a new cavalry detachment after him last night from Ahumada on the south of Ahumada.

While the cavalry forces are moving in from the east, the command of 6000 men at Santa Anna under Colonel Cano is believed at the Juarez headquarters to be sufficient to check any attempt by Villa to escape to the south up the canyon of the Santa Maria river.

A dispatch received today from Colonel Nieto Macia at Pearson, stated that Villa carried a large number of wounded with him in wagons through Galena.

Soon after General Pershing's departure last night the mass of detailed information which had been pouring in for several days from numerous points on the border, west of here about details of troop movements, was completely stopped. This was in line with the policy forecast by military authorities to keep secret any important troop movements. No information reached here as to how soon movements in force might be expected.

Carranza troop movements, according to reports from Mexican officers at border points are much similar to the American army preparations. The Mexican soldiers are being gathered in considerable force at various points, instead of rushing a few small bodies of men in immediate pursuit of Villa. These Carranza forces, massing at various points near the American border numbered some thousands. Reports reaching Juarez seemed to indicate that to the south also the Carranza preparations seemed to be for a long rather than a short and fast campaign.

Five thousand rounds of rifle ammunition and a few old rifles were seized by the police today in a house in the Mexican quarters. The ammunition was discovered during a search for spies.

STRICT CENSORSHIP OF NEWS ESTABLISHED.
(ASSOCIATED PRESS TELEGRAM)

San Antonio, Tex., March 14.—A rigid censorship was ordered established at Columbus, N. M., today by Major-General Funston. He instructed Brigadier-General Pershing, commanding troops, to take charge of the telegraph office, watch all automobile routes, and guard telephone wires out of the town. This action was taken to prevent news of the troops movements leaking out in press dispatches.

General Funston said newspaper reports from New Mexico had been revealing every movement of troops, the disposition of the forces and the amount of their equipment.

"There was no use trying to conceal our plans here while there was a leak on the border," he explained. "We had to act."

It was indicated that if the censorship was evaded, martial law might be the next step in controlling the news situation at Columbus.

It was announced today that Brigadier General George Bell, Jr., commander of the fifth brigade with headquarters at San Antonio, had been ordered to El Paso to take command of the troops there, relieving General Pershing.

General Bell will have charge of the border situation when General Pershing's advance into Mexico has been begun.

No orders for a movement across the border were issued from Fort Sam Houston this morning and none are likely today. General Funston said that from now on he would refuse to answer questions concerning the commencement of the expeditionary force's departure.

Defense Rests in Bribery
Trial of Former Mayor of
Toledo; Sum Up Evidence

The case is expected to be given to the jury before court adjourns for the day.

Upon the testimony of Burton O. Gamble, automobile agent and Edward Gerhardt, his representative, that the acquisition by Keller of the \$1500 automobile was illegitimate and that it was given him to influence his vote in the awarding of a large contract for motorized fire apparatus, the state expects to secure conviction. The fact that the two witnesses admitted that they had testified before grand jurors prior to the one which returned the indictment that the transaction was legitimate, is to be used by the defense in asking for acquittal.

VILLA SURROUNDED

(Continued from Page 1.)
PREPAREDNESS LEGISLATION TO BE RUSHED.

Washington, March 14.—In keeping with the president's desire to have all preparedness measures rushed through congress the rules committee today appointed a sub-committee to confer with Speaker Clark on side tracking all other business after the passage of the free sugar repeal in favor of the army bill.

An agreement was expected before night. If the plan carries, the army bill may be before the house by Friday. The immigration bill now is slated to come up for discussion before the army bill.

Before appointing the sub-committee, the rules committee drew a rule to provide twenty-four hours' debate and night sessions on the army bill. In the senate, yesterday's outburst against prolonged delay in considering defense measures served to arouse senators generally to hasten their work.

CARRANZA ACCEPTS

President's Proposal for Co-operation
Not Intervention.

Washington, March 14.—Administration officials today momentarily awaited word from General Carranza that the first detachment of American troops were moving into Mexico in pursuit of Villa and his bandits. Official information from the border indicated that mobilization of troops had made such progress that the first force was ready to cross the international boundary at any time.

The state department was formally advised of the receipt by General Carranza of the reply sent yesterday to his proposals for a reciprocal agreement as to the pursuit of bandits along the border. The official information reached the department that the American note was favorably received by General Carranza but the official messages made no comment on that point.

The department has not renewed its standing order, urging Americans to stay out of Mexico for the time being but it was indicated that the attentions of consuls in Mexico might be again directed to those instructions.

Although protected by a Carranza garrison, the Mormon colony at Casis Grandes in the heart of Villa's territory is cut off from the border by a break in the railroad undoubtedly made by one of the Villa bands. One of the first movements of the American forces probably will be in that direction.

Acting Secretary Polk reported to President Wilson today that word received at the state department from various sections of Mexico indicated that a favorable impression had been made by the note sent General Carranza yesterday and the president's assurances that no armed intervention in Mexico was planned.

Mr. Polk's report was optimistic and did not confirm reports that Carranza supporters resented the pursuit of Villa by American troops.

Officials are confident that the situation so far as General Carranza himself is concerned has been adjusted by the acceptance of his proposal for a reciprocal arrangement by which either his troops or American troops may pursue outlaws on either side of the border. A note of acceptance was on its way today to Carranza. Under this arrangement General Funston will carry out his task with the expectation that Carranza will heartily co-operate.

Mexican embassy officials were especially pleased with the agreement.

Purification of reports that the United States expects trouble from Carranza is understood to be resented by administration officials, including the President, some of whom say that they are being purposely disseminated by a certain element in order to bring about war with Mexico. Officials have made it clear that steps already taken were deliberately intended to preclude the possibility of armed intervention and they are seriously considering taking action to stop publication of reports of an alarmist nature.

There was further talk at the capital today in regard to the proposal to lay aside for the present other legislation in order to dispose of the preparedness bills and it is believed that an agreement to that end may be reached between the two houses.

The President is particularly anxious for action on the preparedness measures.

The note to Carranza defines the terms of the agreement beyond the possibilities of misconstruction. In brief, it provides that where conditions arise on the American side of the border similar to those at Columbus, which led to the orders to General Funston to enter Mexico, the same privilege will be accorded to the Mexican de facto government.

without the necessity of a further exchange of views. It is clearly stated, however, that the bandits to be pursued on American soil by Mexican troops must have come from the American side, committed depredations on the Mexican side and fled back again to United States territory. There is no such instance on record in recent years.

The note follows: "The government of the United States has received the courteous note of Senor Avuna and has read with satisfaction his suggestion for reciprocal privileges to the American and Mexican authorities in the pursuit and apprehension of outlaws who invest their respective territories lying along the international boundary and who are a constant menace to the lives and property of residents of that region."

"The government of the United States, in view of the unusual state of affairs which has existed for some time along the international boundary and earnestly desiring to co-operate with the de facto government of Mexico to suppress this state of lawlessness, of which the recent attack on Columbus, N. M., is a deplorable example, and to insure peace and order in the region contiguous to the boundary between the two republics, readily grants permission for military forces of the de facto government of Mexico to cross the international boundary in pursuit of lawless bands of armed men, who have entered Mexico from the United States, committed outrages on Mexican soil, and fled into the United States, on the understanding that the de facto government of Mexico grants the reciprocal privilege that the military forces of the United States may pursue across the international boundary into Mexican territory lawless bands of armed men who have entered the United States from Mexico, committed outrages on American soil and fled into Mexico."

"The government of the United States understands that in view of its agreement to this reciprocal arrangement, proposed by the de facto government, the arrangement is now complete and in force and the reciprocal provisions thereunder may, accordingly, be enforced by either government without further interchange of views."

"It is a matter of sincere gratification to the government of the United States that the de facto government of Mexico has evidenced so cordial and friendly a spirit of co-operation in the efforts of the authorities of the United States to apprehend and punish the bands of outlaws, who seek refuge beyond the international boundary in the erroneous belief that the constituted authorities will resort to no pursuit across the boundary by the forces of the government whose citizens have suffered by the crimes of the fugitives."

"With the same spirit of cordial friendship the government of the United States will exercise the privilege granted by the de facto government of Mexico in the hope and confident expectation that their mutual efforts lawlessness will be eradicated and peace and order maintained in the territories of the United States and Mexico contiguous to the international boundary."

NACO UNDER ARMS

Report That Villa Sympathizers Would Raid Town.

(Associated Press Telegram)

Naco, Ariz., March 14.—Naco was under arms during the night as the result of reports from sources considered reliable by military authorities that a raid on the town was planned for the early morning hours. Women, children and valuables were hurried from the border by Americans. Early today all was quiet.

Following reports last night that Villa sympathizers at Cananea, Sonora, were threatening trouble the wires between that town and the border were cut.

The authorities here were also informed that several pieces of artillery were discovered hidden in a house in Nogales, Sonora, and that Mexican soldiers had been seen carrying what appeared to be ammunition to the place.

In Naco the company of infantry on duty on the American side was augmented by another company from Disbee. The patrols were given instructions to "shoot to kill" any one found trying to burn houses or who refused to halt at command.

Officials here are unable to learn of conditions at Cananea, Sonora, one of the largest mining centers of Sonora, which is operated largely by Americans. Wires were cut during the night, leaving Cananea isolated. A train carrying no lights, arrived in Naco, Mexico, just across the border last night, bringing alarming rumors from Cananea.

LANSING'S VACATION: ARMY IN CHARGE OF MEXICAN SITUATION.

Washington, March 14.—Secretary Lansing was on his way to Pinehurst, N. C., today for a week's vacation. For many weeks the secretary has been working steadily in a heavy pressure of diplomatic affairs and feels the need of a rest.

Taking a vacation at this time was regarded here as indicative of how completely the state department regards the Mexican situation in the hands of the army and that the understanding with Carranza is complete.

DUMDUM BULLETS USED BY VILLA IN RAID AT COLUMBUS.

Chicago, March 14.—American made dum-dum bullets were used by the Villa forces in their raid on Columbus, N. M., according to private Stephen Wiczorkiewicz, of the Seventh United States infantry, who took part in their pursuit across the border. Wiczorkiewicz made this statement while passing through Chicago on his way to his home in Toledo, O., where he expects to arrive today. He exhibited soft nosed bullets of the dum-dum type and asserted they were taken from the belts of dead Mexican bandits by members of the Thirteenth cavalry at Columbus.

GREEKS CLASH WITH FRENCH, BERLIN SAYS

ALSO REPORTED THAT GREEK CABINET RESENTS DEMANDS OF ALLIES.

Open Rupture of Relations May Follow Insistence Upon Them by Entente.

(ASSOCIATED PRESS TELEGRAM)

Berlin, March 14.—(By wire) to Sayville, N. Y.)—Premier Skouloudis of Greece is said by the Overseas News Agency to have informed the Entente Powers that his government would not accept certain demands made by them, and that insistence on them would disturb the relations between Greece and the Entente.

"It is reported from Athens," says the News Agency, "that Premier Skouloudis read before the cabinet a collective note from the Entente Powers. After a short discussion the cabinet resolved not to accept the demands made in the note."

"In accordance with this decision, the premier invited the entente ambassadors to meet him and communicated to them the following points decided upon by the government."

"The Greek government is not disposed to transfer to the entente administration of railroads in northern Greece and Macedonia."

"The government does not consider it convenient to withdraw Greek troops from Florina and Kavala."

"The government must oppose military occupation by entente troops of the Corinth strait and at the same time advises the entente that such attempts would disturb the present relations between Greece and the entente."

"Furthermore Greece is opposed to the establishment of wireless stations."

NARROW PASS SELECTED FOR VILLA'S STAND

BANDIT LEADER REPORTED TO HAVE CHANGED HIS FORMER PLANS.

Will Resist American Punitive Expedition in Chihuahua, Sierra Mountains.

(ASSOCIATED PRESS TELEGRAM)

El Paso, Texas, March 14.—A circumstantial story reached here today from Mexican sources to the effect that Villa had once more changed his plans and intended making a stand against the American punitive expedition at Ojitos Pass, the narrow gap in the western Chihuahua Sierras through which he made his murderous dash on Columbus.

Americans familiar with the country assert that the Ojitos Pass is admirably adapted for a successful defense if Villa really intends to risk an open engagement with the American troops and does not intend to use guerrilla tactics.

All night long sensational reports came into this city from various points along the border, but nearly all lack confirmation. The most definite came from Naco, Ariz. For some days reports have reached here from Naco of heavy movements of Carranza troops. Early today it was asserted that a considerable number of these troops were showing increasing hostility towards Americans and might even espouse the cause of Villa.

The United States military authorities were sufficiently aroused by these stories to rush reinforcements to the garrison at Naco.

The frontier country between here and Columbus is showing unmistakable signs of nervous strain. It has been increasing in tension since the Columbus raid. The scattered hamlets which mark this section, consisting generally of half a dozen houses occupied by railroad foremen and section hands, have sent requests to the military officials for protection.

Stories of activities of Villa agents have poured into Fort Bliss and many have been received by the civil authorities. Several arrests have already been made and others are expected to follow. One such story is the offer by the Villa sympathizers are using dogs to send messages and information across the border. The man who brought this story is an American living on the border close to this city. He said he had seen one dog with a roll of papers tied around his neck, running across the border. He fired several bullets at the animal, but failed to hit it.

In the meantime trains loaded with all kinds of military supplies continue to arrive here or pass through on their way to other points on the international line. Among the equipment brought in was a trainload of motor trucks which are to be used as transports in the sandy wastes of the Chihuahua deserts.

Keen interest is being shown here in the arrival of the aeroplane squadron which is reported to be on its way from San Antonio and is expected to arrive today or tomorrow. The twenty-third infantry, which was ordered from Galveston, is also expected here tomorrow.

The question as to where the border will be crossed first and when, remains a matter of pure speculation in the absence of any official information, but there are numerous signs that the starting will not be long delayed.

AN EASY WAY TO END CATARRH FOREVER

Simple Home Treatment Destroys Germs of This Dangerous Disease.

The reason why so many people who suffer from Catarrh never seem able to get cured is that they are continually seeking the momentary relief of sprays, douching, greasy cream, ointments, etc. Such things do open up the swollen nostrils and clear the head temporarily, besides stopping for a while the disgusting blowing, hawking, spitting and choking, but they never cure. To drive out Catarrh for good you have got to get down to its real cause. Catarrh is a germ disease. The air is always full of catarrh germs thrown off by one person and absorbed by another and when the system does fail to throw off such germs they find permanent lodgment in the nose, throat and head and multiply rapidly.

The germs of catarrh can be best destroyed by inhaling the pure medicated air of Hyomei (pronounced High-o-mee). This splendid and powerful combination of oil of Eucalyptus with other healing agents has a wonderful germicidal action. You breathe its air into your nose, throat and lungs by means of a small hard rubber inhaler which T. J. Evans and other leading druggists here in Newark, Ohio, and vicinity supply with every treatment. This method at once kills the germs of Catarrh and drives them completely out of your system and when the germs are destroyed the catarrh with all its disagreeable symptoms will stop. Even two or three minutes use will give refreshing relief, while, if you will use it two or three times a day for a few weeks it will completely banish catarrh and every symptom of catarrh. As Hyomei is pleasant to breathe and is always sold by druggists everywhere with a positive guarantee of successful results or money back, surely no Catarrhal sufferer should go long before trying this simple home remedy.

Music

Symphony Concert.

Mr. Julius Sturm, the popular young leader of the cellos is to be the soloist with the Cincinnati Symphony Orchestra at the concert Thursday evening, March 14th.

Mr. Sturm is the solo cellist of the orchestra and has occupied that position for several years. His technique is truly wonderful, and his vigorous tone, in addition to his respectful manner of playing, immediately commands his art to his audience.

Mrs. Sturm (nee Miss Virginia Daddwell) is a charter member of the Women's Music club and interested in its success. Mr. Sturm has generously contributed a solo, and there will be much interest evinced in this number of the program, because of their many friends.

One regard in which the Cincinnati orchestra has shown itself more progressive than that of Boston is testified in a letter from W. Lynwood Farnum, organist and choirmaster of Emmanuel church of Boston, to Manager Kline Roberts. He writes: "Thank you for sending me the two programs of the Cincinnati Symphony orchestra. I wanted them to show to some people here on account of their containing a number of great works in musical notation. I, in company with many others, wish very much to have such included in the Boston Symphony programs and have many signatures to a petition to this effect. Such things as you have printed are a wonderful help to the listener." The themes referred to are those which are printed in the analyses of the symphony numbers found in the programs.

How Famous Actresses Banish Superfluous Hair

Betty Lorraine, the popular actress who won fame in "The Little Zerkine" and other comedies writes: "Theatrical women are now using a remarkable prescription that acts like magic in getting rid of unsightly hair growths. It is Mrs. Osgood's Wonder. Unlike the electric needle, it can be used with perfect safety. Unlike evil-smelling depilatories, it doesn't burn the skin. I used it first over a year ago and have not had a trace of superfluous hair since."

Mrs. Osgood's Wonder is quite inexpensive and is sold by T. J. Evans and other up-to-date druggists. Signed Money-Back Guarantee in every package.

Governor Frank B. Willis, through his official bureau, makes the statement that he will be supported by the same politico-religious organizations which aided him in his campaign two years ago. The Columbus Saturday Monitor, financed by the Geiger-Jones company, denies the statement of Rudy W. Mack as to "dry" opposition to Willis in Hamilton county where he made the deal with the "wets" and added: "This effort 'is no more effective in hurting him than is the rumor that the members of the Junior Order of American Mechanics and other patriotic societies (Guardian) are opposing him. Prominent representatives of all these groups of men have given assurance that there is absolutely nothing in the stories set afloat. Nor is the Governor afraid." This quotation is quite significant of the past and explanatory of future activities of Frank B. Willis in politics.

Future of College Students.

Figures of the plans of the Yale college senior class were given out the past week. There are 126 of them who will enter some form of business, while but 79 of them will become lawyers, and only nine clergymen. This is a great change from the years when most college graduates went into the professions.

The big motive governing this choice seems to be the matter of money. Business is popular because it offers a chance for large returns. Law is the one profession that is still favored, since it too, has chances for big incomes. But it is an over-crowded profession. Many young men have little liking for the long solitary wait after a student has hung out his shingle, with years

In the Santiago campaign Pershing won this commendation from the colonel of his regiment, the tenth cavalry: "I have been in many fights and was all through the civil war, but on my word he is the bravest and coolest man under fire I ever saw in my life." Captain Pershing's short, sharp and brilliant campaign against the Moros of Mindanao, followed by an achievement in pacification that proved him to be a natural diplomat as well as a soldier, brought him promotion to the grade of brigadier general. He saw five years' service in the wild Mindanao country, both as commander of the department and governor. From March to September, 1905, he was with Kuroki in Manchuria as the American military observer.

At home in the desert country, familiar with the uses of savage warfare, a regular of regulars, sound in judgment as in physique, a born cavalryman, John J. Pershing is an ideal commander for the pursuit into Mexico.

Some Examination Tests.

(Ohio State Journal.)
 There are in the Ohio Monthly Educational Monthly for March two lists of test questions, one by Superintendent Hawkins of the Newark schools and the other by Superintendent Dyer of the Boston schools. The tests presented by the former are submitted to the pupils and those by the latter to the teachers. If one hadn't anything to show whereby to tell of the growth of educational tests, these two lists would be sufficient. They appeal both to the pupil and the teachers. The questions are for the purpose of drawing out the appreciation of the knowledge, rather than the knowledge itself. They are to discover what influence the knowledge has upon the pupil's character, his thinking and his ideals. And they do it. They are not mechanical questions, to be answered by rote; but they all arouse the spirit of the pupil to think and do for himself. These tests will tell exactly how the pupil is getting along, for they get at the values of knowledge.

Dr. Dyer's questions are for teachers and they are calculated to find out whether the examinee is a real teacher or not. How different are they from the old style of examination questions, which simply told what a person knew, but not a word as to what a teacher amounted to. What a man knows is not half as important as what he is; and what he is has much to do with his ability to ask questions that have a meaning and a purpose to them. What a great thing for Ohio (Dyer is an Ohio man) to come here and prepare tests for teaching in all our public schools. It would save money and raise the standard of teaching.

Rippling Rhymes

The Grand Duke.
 The Grand Duke Nicholas was canned some eight or seven months ago; his ill-found soldiers could not stand against the well-armed, full-fed foe. His men were armed with rusty guns, and had no powder and less shot; they could not face the fighting Hunns, nor yet endure the German swat. Remarkably the Russian ruler then, "Grand Duke, you failed to cut the grass, I'll send you with a bunch of men to guard some pass." "All right, my liege," the grand duke cried, before the monarch bending low, "your orders I'll obey with pride, for what you say must always go." A tinhorn duke might well have cursed, and nursed a sore and aching head, and vowed his treatment was unjust, and groused around till he was dead. But, smiling, Nicholas retired, and led his bunch of also-rans, a group of has-beens, worn and tired, to tangle before the bush league fans. But, oh, how Nicholas came back, and led his has-beens to the front, and gave the Turks a deadly crack, till Russia gloriied in his stunt! Say, do you sit around and curse, when you've been taken down a notch, or grandly rise above reverse, till all the world your snuoke must watch? WALT MASON.

Spirit of the Press

The Future.
 The fact is that no man living can foresee the precise effect on America when this war is ended or measure in terms of the winning side turned against us. It is said and, we think, with truth, that neither Englishmen nor Germans love us. It is certainly true that for the markets of the world we shall be the competitors of Englishmen or of Germans, or of both. Such competition involves the peril of friction. We cannot avoid this if we would, we would not if we could.—Brooklyn Eagle.

United At Last.
 It is gratifying to note the fact that the murderous assault upon Americans in one locality at least is resented by the whole body of our citizenship. No one rises in Congress to say that the men women and children slain by Villa's marauders at Columbus, N. M., had no right to be there. No politician seeking the hyphenated vote loudly asserts that the victims were joy-riding in a disturbed region and courted their fate. No pacifist proclaims the doctrine that, although Americans had a legal right to live near the border, they should have taken themselves out of the danger-zone in the interest of peace. * * *—New York World.

Penalized Short-cuts.
 Making up your mind about people—whether you will like them or not—the first instant you meet them, is like reading the end of a book first. You may (though you frequently don't) secure a fairly accurate impression, but all the thrill of suspense, the gradual unfolding of surmise into certainty, is lost forever.—Collier's Weekly.

Peaches Still Thin.
 The Demise of the Texas peach crop has not yet been promulgated. We doubt if the oldest inhabitant can recall the like of the fact. Never have we gone into March without hearing at least once of the peach crop's destruction.—Galveston News.

The Age of Quickness.
 The modern wife placed two plates with knives, forks, spoons and tumblers on the dining room table, and took two paper napkins from a drawer, laying one beside each plate. Then she lighted the gas stove opened a can of soup and placed it on a skillet to heat. Next she opened two cans of vegetables and a can of salmon and heated these. She cut six slices of baker's bread and quartered a baker's pie, placing everything on the table together with butter, salt, pepper and a pitcher of cold water.

"John," she said briskly, "your dinner's ready."—Judge.

Pursuit of Villa.
 The pursuit of Villa and his land-pirates will afford an excellent practice for our aviators. There is particular need of them in a rough country, where it is easy for the pursued bands to get behind a ridge and retreat up the valleys. The aviators should be able to fly over all the obstacles in the surface of the country, and get definite information of the places where the bandits seek shelter. The whole expedition ought to be valuable for educational purposes. To begin with, the punitive force is not getting off nearly as promptly as it should have done. We presume the obstacles were insurmountable, but, having been discovered, they ought to be removed. We have about 12,000 troops along the frontier, and it ought to have been possible to get three or four regiments of cavalry off inside of 24 hours.—Philadelphia Record.

 Though "Little Willie" has not been heard from for some time, the following lines show that he has not ceased his activities:

 Cut a gash in baby's breast.
 Willie didn't get a lickin',

Did You Know
 That the Mahometans thought the third day of the new moon was unlucky, because it was that on which Adam was expelled from Paradise? The following days are also black-listed by superstition: The fifth day of the new moon, when the whale swallowed Jonah; the sixteenth, when Joseph was put into the well; the twenty-fourth, when Zachariah was murdered; and the twenty-fifth, when Mahomet lost his front teeth.

Look, Luke.
 We should like to make the following entry in the Joe Miller column being conducted by Luke McLuke:

A man had been out late with some convivial companions in a lo-

cality that was not "dry," and with difficulty got home into his room and into a chair. Then he called to his wife:

"I can't get my boots off."
 "What's the matter with your boots?"
 "Nozzin'."
 "What's the matter with your hands then?"
 "Nozzin'."
 (Exasperatedly)—"Why don't you pull your boots off then?"
 (Tearfully)—"Maria, I've forgot the combination."

Better a Dinner of Herbs.
 Our deep interest in the work of the Audubon Society and possibly other considerations prompt us to gather up a great many of the Battle Creek products which we find around the house and feed them to the poor birds.—Ohio State Journal.

HINTS FOR PROGRESSIVE FARMERS.

From Ohio State University "Ag" College.

How to spray for all the diseases which affect apple, peach, pear, plum cherry and quince trees is treated in a bulletin which will be sent free to any one who sends name and address to the Extension Dept., Ohio State University, Columbus. The bulletin also takes up the treatment of the insect enemies of trees such as the codling moth, San Jose scale, canker worm, and wooly aphid. Outlines for spraying schedules with a list of spraying materials and how they can be home-mixed are also given.

partly, and scattering the water with a while broom. Open the ventilators while the chicks are hatching. The egg chamber must be filled with moist air when the chicks are pipping the shells, otherwise the shell membranes become dry and tough making it impossible for the chicks to get out. Pure air is also necessary at this critical time. Both conditions can be secured simultaneously.

This is the month for the farmer to begin spreading manure, the most valuable fertilizing material in Ohio. When the nightly freezes harden the ground, the spreader can be used to advantage in the forenoon with little damage to the fields. Manure applied to the clover sod to be turned down later in the spring, will produce an average return of \$4.69 per ton according to the experiments at the Iowa Experiment Station. The same treatment for the meadows left for hay will produce striking result. With clover, manure has been found to return \$3.76 per ton, much more than any other treatment.

"Don't waste your time and energy in carrying feed to hogs when you can build a self-feeder for \$15 which will pay for itself in a few months and at the same time make your swine fatten quicker," says F. W. Ives of the Agricultural Engineering Extension Department, Ohio State University, Columbus. The Agricultural Extension Dept., will send

hopper feeder with a complete bill of all materials free to any farmer in Ohio. The feeder has already been tried by a number of farmers and found to be a valuable device.

DON'T GO TO BED WITH COLD FEET

Says: "Often Brings on Attacks of Acute Rheumatism."

An ounce of prevention is worth a pound of cure, and people who are subject to attacks of rheumatism should never go to bed with cold feet.

A whole lot is being said about taking salts and effervescent tablets for rheumatism and sciatica, but those who suffer twinges and painful swollen joints need something powerful to overcome their piteous suffering.

Any broad-minded druggist will tell you that one-half teaspoonful of Rheuma (taken once a day) is driving more rheumatism out of afflicted people than all the salts on earth. Right in this neighborhood T. J. Evans and all druggists sell large quantities of it, and it's the surest and most inexpensive remedy—about 50 cents a bottle.

Everyday Etiquette "What should I do with my knife and fork when passing my plate for a second helping at a dinner?" asked twelve-year-old Mabel. "Your knife and fork should be placed side by side on the side of your plate," her mother replied.

Cocoanut Oil Fine For Washing Hair If you want to keep your hair in good condition, be careful what you wash it with. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle and is very harmful. Just plain mulsified cocoanut oil (which is pure and entirely greaseless), is much better than the most expensive soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get mulsified cocoanut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months. (Advertisement)

Our Boys and Girls "Let not the sun go down on your anger," is one of the firm beliefs of a fond mother has impressed on her little ones. From babyhood her little folks have been encouraged to settle each day's accounts before bedtime and then sink quietly into refreshing sleep.

Indeed, so fixed has this teaching become in their childish minds that it is extremely easy to forgive the playmates who have wronged them. In cases where other children impose upon them they are urged to let them alone, but in the little petty cares of the child world the slate is wiped clean every night.

By all means teach the boys and girls that it is noble and just and kind to forgive. They may be imposed upon occasionally by other children, but that is nothing compared with a clean record every night.

By all means teach the boys and girls that it is noble and just and kind to forgive. They may be imposed upon occasionally by other children, but that is nothing compared with a clean record every day. There is real joy in forgiving, but many never experience the sensation.

EFFICIENT

BUSINESS METHODS FOR GOVERNMENT TO BE TRIED BY NEW INSTITUTE.

New Undertaking Launched by Pres. Goodnow of Johns Hopkins—Trustees are Named.

Washington, March 14.—An institute for "government research" was incorporated here yesterday, the fundamental purpose of which, according to its incorporators, is to apply the test of efficient business methods to administrative and governmental activities and to co-operate with public officers in promoting efficiency.

Formal announcement of the launching of the new undertaking was made today by Dr. Frank J. Goodnow, president of Johns Hopkins university, who will head the institute's board of trustees to consist of leading business men and educators of which Robert S. Brookings of St. Louis, will be vice chairman. Headquarters will be established in Baltimore.

The organization it is stated will be supported by voluntary contributions and administrative experts will be employed to scrutinize from a non-partisan and business-like point of view the processes of government and make constructive suggestions for their improvement.

The first work will be in connection with the federal government but it is hoped to extend it to state and local governments.

The trustees, who will map out this work are:

Edwin A. Alderman, Charlottesville, Va.; Robert S. Brookings, St. Louis; James F. Curtis, New York; C. R. Alton, Cutting, N. Y.; Charles W. Eliot, Cambridge, Mass.; Raymond B. Posdick, New York; Felix Frankfurter, Cambridge; Frank J. Goodnow, Baltimore; Arthur T. Hadley, New Haven; Mrs. E. H. Harriman, New York; Samuel Mather, Cleveland; Charles E. Neill, Washington; Martin W. Ryerson, Chicago; Frederick S. Strauss, New York; Theodore N. Vail, New York; C. R. Vanhise, Madison, Wis.; Robert S. Woodward, Washington.

ASTHMA SUFFERERS

Makes Breathing Easy.

In New England where Bronchitis, Asthma and other diseases of the throat and lungs are so prevalent some wonderfully speedy recoveries have recently been effected by the use of a treatment known as Oxidaze, first introduced by Dr. Eugene Howard, a prominent Worcester physician.

Oxidaze, which is a powerful, but highly concentrated combination of oxidative agents, comes compressed in a small tablet which the patient dissolves in the mouth. One of these simple and pleasant tasting tablets put in the mouth just before going to bed clears out all the choked up air passages, soothes the irritated bronchial tubes and enables the asthmatic sufferer to breathe easily and naturally while lying down and to get a comfortable night's sleep. Oxidaze tablets are harmless, contain no dangerous habit-forming drugs and are not at all expensive. W. A. Erman, T. J. Evans Drug Co., and many other druggists sell them and agree to return money to any purchaser who does not obtain successful results from their use. This certainly makes their test an easy matter to all who suffer from Asthma or Bronchitis.

Easy Way to Remove Freckles and Eruptions

Some women have skin of such texture they occasionally are annoyed by the sudden appearance of freckles, slight eruptions or fine lines. March winds usually play havoc with skins of that kind. In such cases if one will procure an ounce of common medicated wax at any drug store, apply a little of it before retiring, like cold cream, she can easily overcome the trouble. When the wax is washed off next morning, freckles and eruptions come with it. The entire outer cuticle is removed in this way in a week or so, with all its defects. No bleach could so effectively remove freckles or blemishes. The new surface is smooth, clear, fresh looking. No pain or inconvenience accompanies this simple treatment.

In case of wrinkles which sink beneath the outer skin, a solution of powdered saxolite, 1 oz., dissolved in 1/2 pt. witch hazel, makes a face bath which is wonderfully effective.—ADV.

Inside Facts on the Persecution of Armenia's Martyrs

Copyright by Underwood & Underwood, New York.

Turkey's Fanatical Kurds, Who Have Been Leaders in the Persecution and Massacre of the Armenians.

Copyright by Underwood & Underwood, New York.

Armenian Women and Children Who Have Fled From Turkish Massacre in Which More Than 30,000 of Their Race Have Been Made Victims.

"That the crimes of the Lusitania and Persia should be repeated upon Armenians is natural and to be expected. They both are offenses against civilization. High and skilled ability plans the scheme and low brutality carries it out."

The foregoing is taken from a cable message sent by Sir Gilbert Parker in London to John Moffat of the Executive Committee of the Committee of Mercy, which is co-operating with the American Committee for Armenian and Syrian Relief in a campaign to secure the thousands of helpless Armenian refugees. This passage from Sir Gilbert Parker is but one of several received by Mr. Moffat from prominent men in Europe who are commending and encouraging the efforts in America to save the lives of these destitute people and give them at least the bare necessities of life. The tragic distress of these refugees is too well authenticated to admit of any doubt or argument.

There are thousands of them driven from their homes by the Turks and even more homeless Kurds; there are 225,000 of them in the four Russian provinces bordering on Turkey and the Caucasus Mountains, while in the Aleppo section in Egypt and in Persia there also are many thousands and all of them in pitiable condition. America really is the only nation capable of

Armenian Refugees Driven From Home by the Turks and With No Shelter From the Deadly Exposure of Winter.

giving relief to these people to which they may turn in their extremity. What aid has been given to the Armenian refugees has been principally through American agency. The Russians have aided so far as was possible, but the demands upon the Czar's Government are great in themselves for Russia to cope with. The actual relief work done among the Armenian refugees has been accomplished by American Consuls and American Missionaries, but they are practically without funds, and while they have made a dollar go as far as was possible the dollars now are lacking. It is a matter of record that 10,000 Armenians in Persia lived for one month on \$10,000.

"Think of it—a human being living for one month on one dollar. When the Armenians were driven from their homes no time was allowed them to gather any clothing or any household effects. Driven like cattle, suffering the most brutal persecution, aged men, women and little children were hurried into this pitiable exile, thousands of them dying from brutality as well as hunger and exposure. But thousands more of them survived the persecutions, and it is these Armenians who are asked to help and to give a chance for life."

Dr. William A. Shedd, an American missionary of the Presbyterian Board, who has worked among the Arme-

nians and in Persia and throughout Turkey for twenty years, and who now is in America, has communicated with Secretary of State Lansing with an appeal for America's intervention on behalf of these persecuted people. He speaks not only with knowledge of what has been but what is, and asks that his government, the United States of America, will stand forth in the name of humanity and justice to do its part to help relieve these terrible conditions.

There are ample and effective facilities for caring for these refugees if funds are made available. Contributions made to the American Committee for Armenian and Syrian Relief are transmitted to the most reliable persons in the various sections where the need of relief is greatest. The most needed supplies are purchased by them and are placed where they will do the most good. These agents are American Consuls and American Missionaries, their activity serving as a guarantee of genuineness and effectiveness so far as this relief work is concerned. Appeals are being made to America to aid Armenian sufferers; they are in desperate need of immediate relief, of the bare necessities of life. Contributions may be sent to Charles H. Crane, Treasurer, the American Committee for Armenian and Syrian Relief, 70 Fifth Avenue, New York City.

TALK AND PICTURES OF U. B. HOME AT E. MAIN ST. CHURCH

The Stereopticon lecture at the Tenth street church on "The U. B. Home" was listened to by a large crowd Sunday night. The history of the religious cult known as the Shakers was given by the pastor, with the history, description and purpose of the former Shaker farm now owned and operated as a home for needy U. B. orphans, ministers and adults who have met with misfortunes that make them unable to provide for themselves. This farm contains 4005 acres, the largest farm in Ohio under one management and the largest one east of the Mississippi river under a high state of cultivation. This lecture will be repeated at the East Main Street U. B. church Wednesday night, beginning at 7:30 o'clock, admission free. Seventy-one descriptive slides used with the lecture. Come and see the provisions the U. B. church is making to care for its needy.

PREVENT SORE THROAT

Sore throats are very dangerous and lead to serious diseases. They must be prevented. The minute your throat becomes dry and irritated get a little of Lysol's antiseptic from your druggist. Instantly you discover that a refreshing chloricleride gargle will remove all the germs and dust that cause raw sore throats. It is superior to any germicide or antiseptic you have ever used. Is remarkably safe, very effective, and economical. It is used by hospitals and physicians because it destroys disease germs quickly. It is the dependable antiseptic that should be in every home, always ready for instant use. General Laboratories, Madison, Wis.

You'll Get Rid Of Blackheads Sure

There is one simple, safe and sure way that never fails to get rid of the blackheads that is to dissolve them. To do this get a tin of two ounces of plain powdered nixalin from any drug store—sprinkle a little on a hot wet sponge—rub over the blackheads briskly, wash the parts and you will be surprised how the blackheads have disappeared. The blackheads, both blackheads, no matter where they are, simply dissolve and disappear, leaving the parts without any mark whatever. Blackheads are simply a mixture of dust and dirt secretions from the body that form in the pores of the skin. Pinching and squeezing only cause irritation, make the pores larger, and do not get the blackheads out after they break the head. The powdered nixalin and the water simply dissolve the blackheads so they wash right out, leaving the pores free and clean and in their normal condition. No one troubled with these unsightly blemishes should certainly try this simple method. (Advertisement.)

PENNSYLVANIA RAILROAD.
If the Pennsylvania Railroad system could take up all of its tracks and re-lay them in a single line, it would have enough to build a standard gauge railroad around the world and double track it from New York to Kansas City. The annual record of Transportation times which has just been issued shows that the trains of this railroad system are now being operated daily over 26,705 miles of track, which gridiron 13 states and the District of Columbia.

WILSON INDORSED AT MASS MEETING HELD LAST NIGHT

New York, March 14.—A mass meeting here last night under the auspices of the American Rights commission, passed a resolution pledging support of President Wilson in his European policy condemning "all members of the Congress of the United States, who are willing to surrender those rights under pressure of German threats." Another resolution, declaring that the "safety and honor of the American people" requires the country's approval of the policy of the entire allies was passed over many negative votes. Several persons were ejected by the police for interfering with the proceedings.

Indigestion May Be Due to Constipation

Neglect of Important Function May
Seriously Impair The Health.

There are many people who believe they suffer from indigestion when their discomfort really is due to a constipated condition.

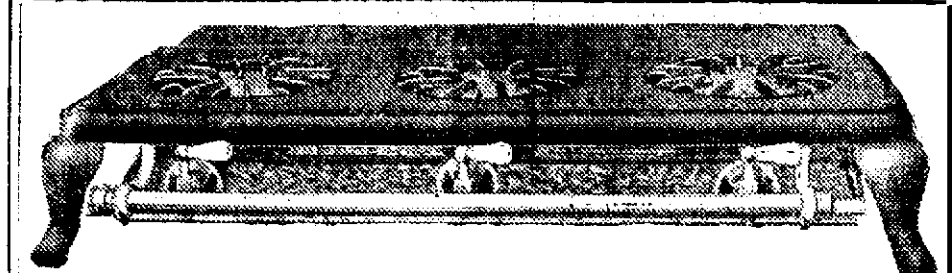

Bloat, with its attendant mental depression, sick-headache, the belching of sour stomach gases, etc., are frequently due to inaction of the bowels. Relieve the congestion and the trouble usually disappears. The use of cathartics and purgatives should be avoided, however; these shock the system unnecessarily and, at best, their effect is but temporary. A mild laxative is far preferable.

The compound of simple laxative herbs known as Dr. Caldwell's Syrup Pepsin and sold in drug stores for fifty cents a bottle, is highly recommended. Mr. Benj. Bassin, 360 St. Gary, Ind., thinks Dr. Caldwell's Syrup Pepsin a wonderful medicine; for years he had a severe case of indigestion and constipation before trying Dr. Caldwell's Syrup Pepsin, which he is glad to recommend to all who suffer with stomach and bowel trouble.

BENJ. BASSIN.

A bottle of Dr. Caldwell's Syrup Pepsin should be in every home for use when occasion arises. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 454 Washington St., Monticello, Ill.

NEWARK TOWNSHIP SCHOOL QUESTION HERE DISCUSSED

Editor of The Advocate:

Among the many discussions of the Cherry Valley School matter, I would like to bring to the minds of the voters of Newark Township the original proposition, which I am still convinced, is the best way out of what has become a complicated problem.

As to the division of the Newark Township School District, I am very much opposed to the same. Such a move would be of no advantage to any section of the township except to the Cherry Valley District. It would enable Cherry Valley to erect a school building which would accommodate their growing need of room.

Now, citizens of Newark Township lay aside any prejudice you may have and look this school matter square in the face. Will you consent to the division of the Newark Township School District? If not, are you willing to help build a school house adequate to the needs of Sub-District No. 7? If you will help along this line, how much of a bond issue will you vote for?

If the County Board of Education should decide to divide the township as petitioned, the division line will be near or partly on the Grandville Road, leaving a school district in the north side composed of four sub-districts and a total enrollment of less pupils than Cherry Valley now has. The petition asks for all the territory included in sub-districts Nos. 6 and 7 and 8 and part of No. 4, and since the law requires the school districts to be of a contiguous territory Nos. 6 and 8 would necessarily have to be taken into the special district or be made into a separate district. If this is done the North district will lose all the taxable property in the way of utilities which amounts to \$1,018,280.00 exceeding the B. & O. railroad north and will also lose the improved real estate west and south of the City which is on the tax duplicate for more than any similar territory in the Township.

If we allow this special district proposition to go through the loss of these utilities will increase our taxes and on the other hand the building of this school house will increase our taxes but we will have an opportunity for better schools by keeping the township together and taxes will decrease as the bonds are paid off.

The three principal propositions before you are, first, a six room building with basement, second, a one room schoolhouse south of the railroad, and lastly a four room school with basement and arranged so it can be added to, when necessary. So far as the six room idea is concerned, while it would be building extensively for the future, it is also expensive and it is hard to tell exactly what the conditions in the future are going to be. The one room plan will not accommodate the overflow from the present two rooms and will deprive the children of the opportunities afforded by a graded school.

Now I am not in favor of either proposition. My solution is this: Build a plain, substantial, four room house with a basement, which can be done by a bond issue, not to exceed \$16,000.00. This will not cause the children to walk any farther than usual and will take care of them for the present and for some time to come.

It will also be sufficient to purchase the necessary additional ground. A building of this kind would cost from 15 per cent to 20 per cent more this year than in 1915, owing to the increased price of material and labor. The basement would cost little more than the cellar proposed last year because the depth of excavation would be one-third less and the extra wall below ground would average only a little deeper than the depth of the foundation required by law.

Now a word about the suggestion of adding two rooms to the present building. Section 12600-45 of the Ohio State Building Code forbids more than one addition to a school building of the grade in which the Cherry Valley building is classed.

Now, Mr. Voter, we have touched

To Quickly Remove Ugly Hairs From Face

(Beauty Notes.)

Beauty-destroying hairs are soon banished from the skin with the aid of a delatone paste, made by mixing some water with a little plain powdered delatone. This is spread upon the hairy surface for 2 or 3 minutes, then rubbed off and the skin washed to remove the remaining delatone. This simple treatment banishes every trace of hair and leaves the skin without a blemish. Caution should be used to be certain that it is delatone you buy. Adv.

on some of the facts concerning this school matter. We know that a school house must be built at Cherry Valley. The County Board of Education will meet next Saturday afternoon to decide on the petition for the division of the Township. WILL YOU LET THEM DIVIDE IT? If not we must get down to business without any further wrangling over this matter. Be sure to make it known to the above mentioned board or to the Township Board of Education or to a member thereof, your position on the division of the Township and also if you will support a bond issue of \$16,000.00 to build a four room building.

TRIBUTE TO A WOMAN.

When the Lusitania went down to its watery grave, taking one of our prominent writers and his wife, leading papers published a remarkable literary tribute previously paid by the husband to the wife. This was because she had been such a helpmate to him in carrying out his ideals. Thousands of women have the ambition to be such helpmates to their husbands, but lack the necessary health. Every such woman should remember that Lydia E. Pinkham's Vegetable Compound is the one remedy which will restore health and strength, the unrivaled medicine for woman's ailments.

"I GLADLY RECOMMEND TANLAC"

"I WAS TROUBLED GREATLY,
COULD HARDLY WALK OR
SLEEP."

"I Now Sleep Well and Am Feeling
Better Than for a Long
Time."

Mrs. Bertha Harris, a well known and popular woman in the Toboso neighborhood, is an example of what Tanlac will do in cases like hers. After trying everything suggested by friends and failing to get any relief she tried Tanlac, the Master Medicine, and that that did the work. In speaking of her condition now and before she took Tanlac she said:

"I had stomach and bladder trouble, was so weak I was unable to walk, was dizzy and rundown, could not sleep, but having started on my second bottle of Tanlac I sleep fine and am feeling better than I have for a long time. The pains in my back and sides are much benefited, and I gladly recommend Tanlac."

Tanlac is equally as good in catarrh, and rheumatism, pneumonia and grippe, and a great nerve tonic. Tanlac is demonstrated at Hall's Drug Store and is for sale at Johnstown by the City Drug Store, at Hebron by the Hebron Drug Co., at Granville by W. P. Ullman, at Pataskala by J. R. Strine, and at Utica by P. H. Richardson. Adv.

FRENCH REPORT CONTINUANCE OF ARTILLERY DUELS

(Associated Press Telegram)

Paris, March 14, 2:30 p. m.—Last night saw a continuance of the artillery activity on the Verdun front. West of the Meuse the cannonading was fairly violent and a reconnaissance on the part of the Germans in the wood of Haudromont was checked by the French, according to official announcement made in Paris this afternoon.

There was severe cannonading near Vaux and also in the Woivre district.

In the wood of Le Pretre a German detachment advancing on a French trench was driven back.

Granville

(Special to Advocate.)

Granville, O., March 14.—The Travelers enjoyed a notable program at Winnipeg on Monday afternoon, March 13, and acquired much surprising information concerning the size and the importance of the Dominion of Canada. Current Events were presented by Miss Roe, Mrs. Fish and Mrs. Hines. From a Fort to a City was the topic of a complete and interesting description of Winnipeg and vicinity given by Mrs. Ben Woodbury. This City of wonderful growth and development is exactly midway between the east and west coasts of America. Only 35 hours from Cleveland and 27 hours from Chicago, so many wonderful statistics were cited by Mrs. Woodbury concerning this region that it is useless to attempt a resume at the conclusion of her paper she called upon Mrs. H. D. Fish to supply the personal touch by reading a letter just received from a friend of hers whose husband had been one of the surveyors of a railroad in that country and who had been in camp up there for seven months. "Canadian Railways" under Mrs. Van Kirk's clever handling became as interesting and as absorbing as a tale of the Arabian Nights. She gave her talk without notes, and related many personal experiences of her own on the great Canadian Pacific railroad both amusing and instructive. Many of the facts one would like to remember—such as the appropriation by the government in 1881 of \$25,000,000 a grant of 250,000,000 acres of land and the 700 miles of road already constructed and running at a loss. In 1885 this stupendous work was completed and during the first year the net earnings were three million dollars. In 1911 the gross receipts were \$101,167,000—about \$36,000,000 net earnings. One is inclined at times to think that they do things better over there if the Canadian Pacific is a fair sample of government enterprise. Next week the Great Wheat Belt and the Northwest Mounted Police will receive attention.

Mrs. Howard Woodbury of Columbus who has been the guest of her brother and sister-in-law, Mr. and Mrs. Ben Woodbury for a few days, returned home last evening.

Mr. Samuel B. Brierley of Chicago, who was in Granville yesterday attending the funeral of Mrs. Lorinda Ballou Wartenbee returned home last night.

Dr. A. K. Follett and Dr. G. F. McKibben accompanied the Wartenbee funeral party to Duncan Falls today, where the body of Mrs. Wartenbee was laid to rest beside that of her husband in the cemetery near her old home.

There was a successful dress rehearsal last night of the entertainment, entitled "Around the World in Eighty Minutes," which will be presented this evening in McCall Hall. Several well known local stars will appear and the program throughout, promises to be most delightful.

Mrs. Anne Peters of Columbus is the guest of Granville friends for a day or two, having come to attend the funeral of Mrs. Wartenbee yesterday.

Miss Eudora Spencer and Miss Lillian Boggs left today for New Jersey, for an extended visit with relatives.

The third lecture by Prof. H. D. Fish on "Hereditary in Plants and Animals," given in the Opera House last evening was well attended and proved to be the most interesting yet given. Prof. Fish employed many fine illustrations and the various stages of development in the invertebrate species were well marked. Owing to the change in the hour to 7 o'clock, many of the audience were late in arriving.

DID NOT HONOR A REPORTER'S BADGE; DETECTIVE "FIRED"

(Associated Press Telegram)

Toledo, March 11.—Chief of Detectives William D. Delehanty late yesterday was dismissed from the Toledo Police force by Director of Safety Newton, who heard charges preferred by Louis Silverthorne, an editor on a morning newspaper, that the officer assaulted him while at the Widell hotel fire last Wednesday night, refusing to recognize his reporters badge.

Delehanty has been a member of the police force for 15 years most of which time he has served as detective. He has a country-wide reputation, having figured in several sensational criminal cases. An indictment returned some time ago, charged Delehanty with extortion. His trial will follow that of former Mayor Carl H. Keller, it is said.

Delehanty announced today that he would exercise his right of appeal to the civil service commission. The decision of this body will be final.

If Too Fat Get More Fresh Air

BE MODERATE IN YOUR DIET
AND REDUCE YOUR WEIGHT
WITH OIL OF KOREIN.

Lack of fresh air, it is said, weakens the oxygen-carrying power of the blood, the liver becomes sluggish, fat accumulates and the action of many of the vital organs are hindered thereby. The heart action becomes weak, work is an effort and the beauty of the figure is destroyed.

But put on by indoor life is unhealthy and if nature is not assisted in throwing it off by increasing the oxygen-carrying power of the blood, a serious case of obesity may result.

When you feel that you are getting too stout, take the matter in hand at once. Don't wait until your figure has become a joke and your health ruined through carrying around a burden of unsightly and unhealthy fat.

Spend as much time as you possibly can in the open air; breathe deeply, and get from W. A. Erman, Evans Drug Store or any druggist a box of oil of korein capsules; take one after each meal and one before retiring at night.

Weigh yourself every few days and keep up the treatment until you are down to normal. Oil of korein is absolutely harmless, is pleasant to take, helps the digestion and even a few days' treatment has been reported to show a noticeable reduction in weight.

GRIFFITHS IS STRONG IN EARLY ROUNDS

Gets a Lead Which Beecher is Unable
to Overcome in a Rapid
Finish.

Columbus, O., March 14.—Johnny
Griffiths of Akron had a shade over
Willie Beecher of New York in 12
rounds before the Olympia Club at
the Coliseum last night. Griffiths
earned the edge from the fact that
he landed oftener and made Beecher
miss. This lead was more apparent
in the early rounds of the bout for,
as the battle progressed, Beecher
came along better and toward the
end of the contest was making John-
ny extend himself every inch of the
road to keep the advantage taken in
the earlier rounds.

Beecher waged a wonderful bat-
tle and made a place for himself in
the hearts of the Columbus fans
that his previous appearance here
failed to secure. He showed that he
can come from behind and make a
wonderful contest against as classy
a man as Griffiths.

Griffiths, too, showed the folks
something that many thought he did
not possess. He can stand the gaff
and, at the same time, use his clev-
erness to great advantage. Beecher
after the fifth round, tried rushing
tactics on the Akron pride and land-
ed many a stiff blow on the head
and face of the upstate near cham-
pion, but while he was doing so he
received many a hefty uppercut and
hook to the face and body.

Johnny, too, used his famous chop-
ping blow with his right hand that
landed on Willie's face with unerring
precision in several of the mixups. It
was only Griffiths' cleverness that
kept the tide of battle where he
wanted it. Beecher rushed at him
several times and landed a left hook
to the jaw which, if followed up,
might have had considerable differ-
ence in the outcome of the bout, but
Johnny, with his wonderful defense
and clever infighting, made the
New Yorker lose much of his sting
and take many a blow in exchange.

the vaccine had proved satisfactory

BOWSER TACKLES HEAVY MAN FOR FRIDAY'S BOUT AT AUDITORIUM

"BULL" MONTANA.

When Paul Bowser announced last
December that he would meet any
wrestler brought to Newark, it was
not an idle boast. He meant just
what he said. This was shown
when he accepted the challenge of
"Bull" Montana, light heavyweight
champion of New York, for the
match Friday night at the Auditori-
um. The match was arranged
promptly and announcement made
the night he defeated Turner.

Montana is a man with a reputa-
tion. He is much heavier than
Bowser but the superior speed and
endurance of the Newark wrestler
gives him a chance with the stronger
man.

One of the preliminaries will be a
match between Billy Ninich who
helped Bowser train for the Turner
match, and Raymond Carpenter of
Lancaster, a coming wrestler. An-
other good preliminary will start at
8 o'clock. The main bout will start
between 8:30 and 9:00 o'clock.

WERTS

DOES NOT SEEM TO REALIZE ENORMITY OF CRIME OF MURDER

Of Which He is Charged—Sleeps and Eats Well—Victim's Funeral Today.

James "Bud" Werts, confined in the county jail and accused of murdering his brother-in-law, George Stevens, seems to have no conception of the enormity of the crime. He is cheerful, sleeps well and has a hearty appetite. He apparently does not realize the fact that he is charged with first degree murder, the penalty of which can be death in the electric chair.

Young Wertz claims self-defense and it will be up to him to prove that he was protecting his own life when he fired the shot that killed George Stevens last Saturday afternoon on his father's farm six miles northwest of this city, after young Werts and his father had been to

MRS. HELEN WERTS STEVENS.
 [From a picture taken 1913]

Newark and returned home somewhat the worse for drink, according to neighbors who saw the two men shortly after their return.

Werts has told conflicting stories regarding the tragedy and they do not agree with the story of the affair told by his mother and his sister, wife of the murdered man. Mrs. Helen Stevens as told in Monday's Advocate, denies that her husband was choking her when her brother "Bud" appeared after reaching home from Newark.

Mrs. Stevens and her husband were married after a courtship of nearly a year, eloping to Columbus on January 10 last, where they were married. Afterwards they returned to the home farm and Stevens assisted with the work. Lately the elder Werts and his son desired to get rid of Stevens and it was that mission which brought them to this city last Saturday as they consulted an attorney with reference to securing a separation for the girl, who is not yet seventeen years of age.

The hearing of Werts on the mur-

der charge will take place in the justice court of Fletcher S. Scott next Thursday afternoon at one o'clock. He will be represented by Attorney Phil B. Smythe while the state will be represented by Prosecutor J. W. Horner. Should he be bound over to the grand jury his case would come up at the meeting of that body the first week in April.

Funeral services for George Stevens, victim of the shooting affray on the Werts farm Saturday afternoon, were held this morning at 10 o'clock at the undertaking establishment of T. A. Bazler, 15 West Church street. Rev. W. D. Ward, pastor of the Central Church of Christ officiated. The services were attended by the parents and sisters of the dead man. His wife, Mrs. Helen Werts Stevens, did not attend the services. Burial at Cedar Hill cemetery.

Divorce Petition.

Irwin H. Peters has filed a petition in common pleas court against Cora B. Peters, asking for a divorce. This is the third time such a petition has been filed by the plaintiff, once before in the Licking county court and also once in Franklin county.

The parties were married Dec. 21, 1908, one child, now five years old, resulting from the union. The plaintiff alleges that the defendant abandoned plaintiff on March 4, 1914, and went to the home of her father, taking along their child and declaring she would never live with him again. He also alleges that the defendant does not love him and has frequently so declared.

Other allegations are named and plaintiff asks for a divorce and the care, custody and control of the minor child.

Probation Officer Here.

Miss Emily Greer, one of the probation officers of the girls' industrial home at Delaware was a visitor in the city today, having business with the juvenile court. Miss Greer is very active in welfare work for girls and has an enviable reputation over the state as being one of the most progressive officers who has ever served the Delaware institution.

Granted Divorce.

Nellie Hager was granted a divorce in probate court today from Ollie Hager, whose residence is said to be in Pennsylvania. The divorce was granted on the ground of wilful absence. The plaintiff was also awarded the care, custody and control of a minor son three years of age.

Commissioners Kept Busy.

County Commissioners Jos. H. Orr, Frank R. Dumm and Orville Kiger are viewing the proposed Vanatta ditch south of Pataskala today. They are tramping over the route petitioned for by those interested and will later give a decision in the matter. Wednesday morning the commissioners will hold a hearing at their office in the court house on the proposed change in the Rector road in Mary Ann township, which has been petitioned for by a number of residents interested. The change would do away with two hills.

Thursday morning the commission will have a hearing at their office regarding the compensation for damages to property owners along the proposed new west and east road through Granville, and made necessary by the paving of Main street through that village.

Hot Water for Sick Headaches

Tells why everyone should drink hot water with phosphate in it before breakfast.

Headache of any kind, is caused by auto-intoxication—which means self-poisoning. Liver and bowel poisons called toxins, sucked into the blood, through the lymph ducts, excite the heart which pumps the blood so fast that it congests in the smaller arteries and veins of the head producing violent, throbbing pain and distress, called headache. You become nervous, despondent, sick, feverish and miserable, your meals sour and almost nauseate you. Then you resort to acetanilide, aspirin or bromides which temporarily relieve but do not rid the blood of these irritating toxins. A glass of hot water with a tea-spoonful of limestone phosphate in it, drank before breakfast for awhile, will not only wash these poisons from your system and cure you of headache but will cleanse, purify and freshen the entire alimentary canal. Ask your pharmacist for a quarter pound of limestone phosphate. It is inexpensive, harmless as sugar, and almost tasteless, except for a sourish twinge which is not unpleasant, if you aren't feeling your best, if tongue is coated or you wake up with bad taste, foul breath or have colds, indigestion, biliousness, constipation or sour, acid stomach, begin the phosphate hot water cure to rid your system of toxins and poisons. Results are quick and it is claimed that those who continue to flush out the stomach, liver and bowels every morning never have any headache or know a miserable moment.
